Clip-it Strip

Hangman Products Clip-it Strip Paper & Note Holders attaches to refrigerators, file cabinets, tool boxes, walls or any other flat surface. If the surface is metal the built-in magnets will hold the **Clip-it Strip** otherwise use the included double-sided tape. Just insert the paper and it's held in place. Just pull down and it releases. No more clips, pins, tape, or paper weights.

Our Clip-it Strip Paper & Note Holder has a place on top for a pen or pencil. It also includes descriptive stick-on labels to attach to the Clip-it Strip.

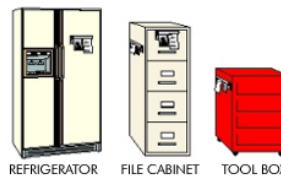

It works just like the holders used in restaurants and X-ray labs. It holds paper, film or any medium up to 3-mil thick. Clip-it Strips are made of sturdy, high strength aluminum with an elegant, clear anodized finish. Our internal assembly is made of ceramic rollers for strength and durability. Our Clip-it Strip will not rust or corrode. Hangman Products Clip-it Strips make your customer's lives so much easier!

Woman's Day

December 2004, Woman's Day Editor's Choice
