D-Ring & Sawtooth 2nd Hole Locator

Hang It Level Every Time!®

The Hangman Products Sawtooth and D-Ring, 2nd Hole Locator makes it easy to find that elusive 2nd hole in seconds. When using a single D-Ring or Sawtooth hanger all you have to do is simply install the **Bear-Claw Hanger** and hang your object. After that, use the **Hangman Picture Straightener** to make sure the frame is level.

When using two D-Rings or Sawtooth hangers you need to find that second hole and that's where the **Hangman 2nd Hole Locator** comes in handy. D-rings and Sawtooths do not have to be installed level on the frame because the 2nd Hole Locator will compensate for any misalignments. Patent Pending. At the bottom of this section scroll down to see our handy diagram, then you can see how our **Hangman 2nd Hole Locator** makes picture frame installation easier than easy. Your customers will love this because it is so simple and painless to use.

Hangman Benefits:

- **Hangman Products creates more return business.**
- **Hangman maximizes display space. Self-tapping tip for easy starting in drywall**
- **Hangman maximizes profits.**

Retailers, remember to recommend **Hangman Products** to your customers. We have the perfect solution for home improvement and eye-catching displays. Your clients can achieve professional results with minimal difficulty and effort when hanging outdoor wire. **Hangman** makes it all look easy.
