Wall-Dog™

Wall-Dog™ is an all steel, one piece, threaded fastener, which is used to fasten various fixtures directly to drywall. **Wall-Dog™** fasteners are fast. Unlike conventional screw anchors, which require the secondary step of threading a sheet metal screw into an anchor, the **Wall-Dog™** is installed directly through the fixture into the drywall. When your customers need a simple, easy to use fastener tell them about **Wall-Dog™**.

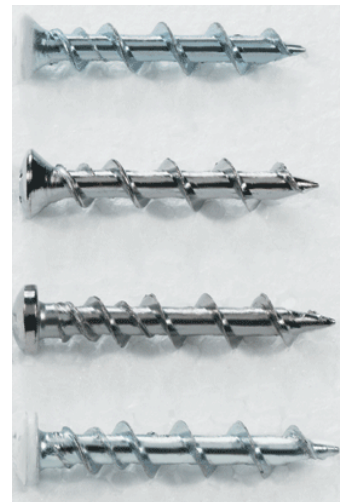

Wall-Dog™ is installed right through fixture into wallboard. Patented thread design allows a **Wall-Dog™** to enter a 3/16" hole producing a one step anchor with superior holding values. **Wall-Dog™** installs quickly and easily with a Phillips® screwdriver in wallboard, plywood, concrete, hollow or grout filled block, brick and plaster.

You can use **Wall-Dog™** to hang the following and a lot more:

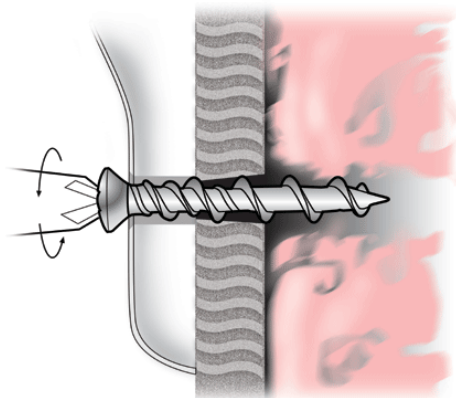

- Picture Frames
- Shelving and Supports
- Mirrors
- Decorative Wall Hangings/Fixtures
- Bulletin Boards
- Chalk Boards
- Signs
- Closet Organizers
- Shelving and Supports

When your customers are shopping for fasteners direct them to **Wall-Dog™**. This is the perfect fastener for home improvement, hanging paintings, hanging other pictures or mirrors, creating art galleries, a home picture gallery or a photo gallery.

Hangman Products sells all four varieties of the **Wall-Dog™** threaded fastener

- Wall-Dog Chrome Oval
- Wall-Dog Chrome Pan
