Hangman Products Announces Two New Products: The Safety Rail and the Universal Hanger

Hangman Products is pleased to announce two new products, The Safety Rail and the Universal Hanger. The Hangman Products Safety Rail prevents items on shelves from rolling or sliding off. Protect household items or store stock from damage or loss due to earthquakes or carelessness. You can use it in the pantry, on pull out shelves or as a shoe retainer. The Hangman Products Safety Rail is used on 3/4" shelves and installs with a rubber mallet. The Safety Rail comes in black, white and clear anodized and is an integral part of the Hangman Products Garage / Closet System.

The Hangman Products Universal Hanger is a stand-alone product that can quickly and easily hang pictures, hang mirrors, and hang wall décor. It is installed with two drywall screws or their equivalent. The Hangman Products Universal Hanger supports up to 25 pounds and the Hangman Products Removable Level is included. The Universal Hanger also works with other Hangman mounting brackets including; the Hangman System, Hangman Lite, Hangnail, the Flushmount System and the Canvas Hanger.

Hangman Products Garage / Closet Components include the Slatwall System, the Shelf Stiffener, the award winning Clip-it Strip and Door and Drawer Pulls. As an example the Slatwall Track or the Shelf Stiffener can work with either the Hangman Products Tool Caddy or a shelf. All trim is available in Clear Anodize, White Powder Coat or Black Powder Coat. Let's work together.

At present Hangman Products includes a growing family of over sixteen product lines, many of them inter-related. Systems and products include: The Hangman System, Slatwall System, Garage / Closet Components, Flush Mount System, Clip-it Strip, Tool Caddy and the Security System. Art Gallery Products utilize our full Hangman System product line which engages on our Art Gallery track.
